

Austin J Kucher, RPh

2017 IHFDA Conference Speaker

Presenting:

“Developing a Diversion Prevention, Detection and Response Program: Challenges and Lessons Learned”

Austin obtained his certification as a Pharmacy Technician in 2012 when he joined Florida Hospital. With a background in computer science, he transitioned to Pharmacy Informatics with a focus on the Pyxis system shortly afterward. Austin entered his current role in January 2015 when Florida Hospital created their Diversion Prevention Program and now leads a team of two analysts.
